

Muhammad Awais Shahid (Front-end Developer)

Email: awaishshahid2014@outlook.com | Phone: +92-324-4438480 | [LinkedIn](#)

Professional Summary

Results-oriented **Frontend Developer** with 3+ years of experience **building scalable** and **responsive web applications** using **React.js**, **Next.js**, and **Tailwind CSS**. Strong command of modern **JavaScript/TypeScript**, **REST APIs**, and **component-driven** architecture. Proven ability to integrate **APIs** and **third-party services** (e.g., **AWS S3**) and implement secure authentication systems using **JWT**. Adept at cross-functional collaboration, **performance optimization**, and delivering **pixel-perfect UIs**. Passionate about clean code and building user-first products.

Professional Experience

Reactjs Developer

Modeverse — Jan 2025 – Present

- Built and maintained **responsive Reactjs** and **Next.js** apps, **optimizing** page load time by 35% through **code splitting**.
- Integrated **JWT authentication** with protected routes, improving **session management** and **security** compliance
- Developed **reusable components** using **Tailwind CSS**, **Shadcn UI** and **React Hooks**
- Integrated **Instagram meta API** to display **Instagram public posts** on the website
- Written **Rest APIs** in **Nextjs API route** using and storing data in **mongoDB**
- Collaborated on **scalable pagination** systems, **filtering logic**, and component animation using **Framer Motion**
- Used **Redux Toolkit** for **global state management**, improving maintainability and debugging speed

React Native Developer

Dealers Hyve — FEB 2024 – Nov 2024

- Developed modular, reusable UI components **React Native Technology** for **Android**
- Converted **Figma designs** into functional user interfaces (UI)
- Used **Redux Thunk** for **state management** and utilised **web socket (Socket.io)** to receive and render **real-time data**
- Utilized **Git** for **code backup** and **version control**

Next.js Developer

Harry AI — FEB 2024 – OCT 2024

- Converted **Figma wireframes** into functional, **pixel-perfect user interfaces (UI)** using custom breakpoints in **TypeScript** and **Tailwind CSS**
- Implemented advanced UI patterns including **color picker**, **stepper** and **hover animations**
- Used **Socket.io** for getting **real-time** notifications, progress of creating images and audios from back-end
- Implemented **optimized image** handling using **next/image**
- Used custom **Tailwind CSS** logic for animation
- Integrated **third-party social media library (AYRShare)** to retrieve **analytics data**, **social posts**, **posts history** and **schedule posts** from 8 different social platforms
- Displayed the social analytics data in **charts and graphs** using **Chartjs**

Next.js Developer

SpyApp — Nov 2023 – Feb 2024

- Designed **mobile-first** dashboards and forms with full **responsiveness** using custom breakpoints in **Tailwind CSS**
- Used **Socket.io** for real-time data operations at device addition
- Implemented **optimized image** handling using **next/image**
- Created **dynamic layouts** and handled edge-case **animations** using **conditional logic** in JSX
- Integrated **Rest APIs** in the app and applied **pagination** on scrolling instead of using typical pagination system

Next.js Developer

Giisty — Nov 2022 – Nov 2023

- Converted **Figma** designs into **pixel-perfect**, **reusable**, **responsive**, and **functional components**
- Utilized **third-party libraries** to develop **high-performance** components.
- Integrated **Rest APIs** and managed data handling
- Used **Git** for **code backup**, management, and **version control**
- Performed **unit and integration testing** to identify runtime issues
- Prepared reports on findings and provided insights
- Managed image/video uploads via **AWS S3** and custom **react hooks**, reducing **user-side errors** by 25%

Education

BS in Computer Science

University of Lahore — 2012 – 2016

FSC(pre-engineering)

Govt MD College(TTS) — 2010 – 2012

Technical Skills

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, JavaScript, TypeScript

Backend: Node.js, Express.js, MongoDB, JWT Auth, REST APIs

Mobile: React Native

State Management: Redux Toolkit, Context API

Styling: Tailwind CSS, Shadcn, MUI, Bootstrap

Database: Firebase, Firestore, MongoDB (if used)

Version Control: Git

Tools & Platforms

VSCode, Cursor, Git, GitHub, Postman, Figma, Vercel, Jira, Slack, Framer Motion

Projects

- Harry AI (Next.js): Full-stack AI based application to generate AI based content to provide ease users in performing different jobs in single application
- SpyApp (Next.js): Full-stack monitoring dashboard with authentication, analytics, and custom styling
- Giisty (Next.js): Full-stack application for medical knowledge sharing using video and audio (Giists (Videos) and Briifs (Audios))
- Dealers Hyve: React Native mobile based marketplace to display luxury watches
- Spy Web app: Nextjs based web application for spying the added Android mobile devices data
